¹ Planned delivery litre rate.

² Super Economy 24 Central Heating tariff of 19.62p per unit. The annual costs includes a standing charge of 40.9165p per day, which equates to £149.35.

³ The Standard Rate is 19.14p per unit. The annual costs includes a daily service charge of 20.87p, which equates to £76.18 per year. Three phase daily service charges are higher.

⁴ The Night Rate of 10.12p rises to 20.02p for every unit used during the 17hrs outside the seven hour Night Rate period. The Night Rate units are to be used within a 7 hour period between 11:00pm & 7:00am. The annual costs includes a daily service charge of 24.77p, which equates to £90.40 per year. Three phase daily service charges are higher.

⁵ The Economy 20 rate is 13.39p for every unit used during the daily twenty hour period. The electricity supply to your heating will be cut for a pre determined 4 hours in every 24 hour period. The annual costs includes a daily service charge of 24.77p, which equates to £90.40 per year. Three phase daily service charges are higher.

⁶ The Economy 20 Plus rate is 19.14p for every unit used with the periods between 1pm to 3pm and 5pm to 7pm. The Economy 20 rate is used outside these hours making up the 4 hour period. The annual costs includes a daily service charge of 24.77p, which equates to £90.40 per year. Three phase daily service charges are higher.

⁷ Based on using 4hrs of heating outside of the pre determined hours (subject to change from JEC). Economy 20 Plus - The Rate of 13.39p rises to 19.14p for every unit used outside the Economy 20 timings.

⁸ The Comfort Heat rate of 10.15p rises to 14.27p (Low Period) and 19.14p (Normal Period) outside the 8 hours discounted rate between 12:00am to 7:00am, 10:00 am to 5:00pm and 7:00pm and 12:00am (subject to change from JEC). Low Period is applicable between 11:00pm and 7:00am. Comfort Heat is applicable between 7:00am and 11:00pm, outside these times. The annual costs includes a daily service charge of 24.77p, which equates to £90.40 per year. Three phase daily service charges are higher.

Notes

- 1) This chart provides a basis for comparing running costs for identical systems using alternative fuels and assumes normal heating of 1600 hours for an average 2 bedroom house with a 15 kW load.
- 2) It does not necessarily indicate annual consumption.
- 3) These figures have been compiled from information received and are believed to be correct at time of going to print or as indicated otherwise.
- 4) All prices excluding GST.

Prices correct as at 18/06/24
